### On the Road

Swerve the hidden costs that car rental firms add on for excess by using [insurance4carhire.com](http://insurance4carhire.com). Most car hire rentals offer a basic insurance included in the price but

charge for the excess as soon as you have a knock. [Insurance4carhire](http://insurance4carhire.com) will cover you (and up to seven named drivers) for up to £2,000 excess for an annual premium of £49 in Europe. This covers theft, plus damage to the roof, windows, tyres or undercarriage. Rental must be made at least 150km from your house and includes rentals in any European city. See Reader Offers on page 113 for a special discount on this price.
